THE TENNESSEAN NAMES PREMISE HEALTH A WINNER OF THE MIDDLE TENNESSEE 2016 TOP WORKPLACES AWARD

NASHVILLE, Tenn. – June 21, 2016 – Premise Health has been awarded a 2016 [Top Workplaces](#) honor by The Tennessean. The Top Workplaces lists are based solely on the results of an employee feedback survey administered by [WorkplaceDynamics, LLC](#), a leading research firm that specializes in organizational health and workplace improvement. Several aspects of workplace culture were measured, including Alignment, Execution, and Connection, just to name a few.

“The Top Workplaces award is not a popularity contest. And oftentimes, people assume it’s all about fancy perks and benefits,” said Doug Claffey, CEO of WorkplaceDynamics. “But to be a Top Workplace, organizations must meet our strict standards for organizational health. And who better to ask about work life than the people who live the culture every day—the employees.”

“Time and time again, our research has proven that what’s most important to them is a strong belief in where the organization is headed, how it’s going to get there, and the feeling that everyone is in it together,” Claffey added. “Without this sense of connection, an organization doesn’t have a shot at being named a Top Workplace.”

A leading worksite health and patient engagement company, Premise Health works with more than 200 of the nation’s leading employers, including many of the Fortune 1000, to provide personalized care to their employees through health and wellness centers located onsite or in close proximity to the workplace. It was formed in 2014 by the merger of industry pioneers Take Care Employer Solutions and CHS Health Services.

“Since its inception, Premise Health has aspired to not only engage and serve its patients, but also to engage and serve each other,” said Stu Clark, CEO, Premise Health. “We believe that success is only achievable if we create a great culture where talented people are appreciated, challenged and engaged. We are honored that this award reflects our progress toward these important goals.”
